

Report on  
**Academic visit**  
**&**  
**Young Professional Seminar**  
**At PDPU**

11<sup>th</sup> January, 2019.

For PG students of final semester

During two day GUJCOST sponsored workshop at BitsEducampus, Dr Vishvesh Badheka (Professor, PDPU) was invited as a speaker of one of the sessions of the workshop. His kind cooperation and motivation energized our PG students and permitted us to visit different laboratories and facilities at PDPU. He also invited our students with one faculty to attend a young professional seminar at free of cost.

**Visited by:**

Four numbers of PG final year students and one faculty member named Raybahadursinh Chauhan (Department of Mechanical Engineering).

Pandit Deendayal Petroleum University had organized a seminar on **“Young Professional Seminar” in Association with IIW INDIA.**

The expert talks covered in half day workshop are:

	<b>Name of the Expert</b>	<b>Topic name</b>
Session 1	Mr. Raghavendra Darji	Welding of Copper
Session 2	Mr. Hardik Vyas	Overview of SS to Al dissimilar metal joining.
Session 3	Ms. Deepika Harwani	Super plasticity in Mg alloys.

All the speakers had delivered the talk on latest technology used in various welding process. The topic was well explained to all the participants.

At the end of the seminar session and Academic visit at PDPU,

- Students are aware about the Lab Facilities regarding their Dissertation work
- Enriched the knowledge
- Open the door for the widen thinking.
- It will be benefited for the upcoming batches in the PG program.

We take this opportunity to thank the Head of Mechanical Engineering Department, Principal of Technology and management of BITS Edu Campus to permit us for a visit.
