Purpose & outcome

The student chapter is very helpful body for students along with their regular studies. There are so many student chapters run by various bodies in India among which The Institution of Engineers (India) - IEI found very important for students as a multidisciplinary professional body of engineers in India. For such benefits to students, IEI student chapter was inaugurated at Babaria Institute of Technology, Vadodara on 2nd March, 2019.

IEI student chapter was established in 1920 which has network of 29 states and 84 local centres. It provides vast array of technical, professional and supporting services to Government, Industries and Academia as well as to the engineering fraternity. It provides financial support to R&D projects in various engineering discipline. IEI organizes technical discourses under the 15 engineering disciplines. Moreover, students can participate in various technical talk, seminar and can take benefit of access to the library facilities at 110 local centres across the country.

The inauguration function was a great success. Dr. Arvind Mohite discussed the benefits of IEI student chapter and helped the students to enhance their knowledge and interest. We are very much thankful to our Management and Campus Director for their continuous support to conduct such events in the campus. All the students were grateful to respected Principal & HOD (Mechanical) for their support in this wonderful inauguration function along with the contribution of the coordinators - Prof. Ronak Soni and Prof. Sunny Rach.
